## PROFILE

My name is Jahonsher, I live in Uzbekistan, I am 18 years old. Technologies I know: "React.js, JavaScript, Vue.js, Next.js, Leaflet.js, Chart.js, TypeScript, HTML, CSS, SASS, Bootstrap, Tailwind CSS, Spline.js, React Vite, Pug.js, React Native". And these are the ones I used independently in projects: "Pug.js, React.js, TypeScript, SASS, React Vite, HTML, Leaflet.js, Spline.js, Chart.js, CSS, Tailwind, Bootstrap" and I did not test these technologies in any way "Vue.js, Next.js, React Native". About me: I like learning technology and the reason I entered this field is the free work environment and high salary.

## PROJECTS MODE

### Green-Shop

2023, 4dec -2023, 10dec

- The Green-shop project allows users to browse and purchase flowers online from the comfort of their homes. This project was created using Pug.js, SASS, CSS, and HTML.
- View: [GreenShop](#)
- Code: [Green-Shop-main.git](#)

### Zlatmax

2023, 10oct -2023, 17oct

- The Zlatmax project is primarily focused on knives. This website allows people to browse and purchase a variety of knives online. This project was created using HTML, JavaScript, SASS CSS.
- View: [Zlatmax](#)
- Code: [ZLATMAX-main.git](#)

### Coin

2024, 1Feb -2024, 10Feb

- The Coin project is designed mainly for use in educational centers. It features an admin panel and a student panel, where students can take tests and earn their coin points. This project was built using Pug.js, JavaScript, SASS, HTML, and CSS.
